PROPS & FAKE ELECTRONICS

Welcome to the MARKS ELECTRONICS Props & Fake Electronics.

We manufacture a huge range of consumer electronic props designed specifically for use by Real Estate agents, Room/Interior Stylists, Furniture Retailers or anyone looking to utilise dummy props to enhance the realism of their displays

All of our dummy props are made from existing late model electronic units and have had the interior components removed from them to make each item lighter and easier to handle. All electrical connections are removed and each unit cannot be plugged in, ensuring safety for you, your employee's and customers.

All of our dummy props are manufactured from real, current model electronic items giving them the appearance of being genuine and operational.

As well as this, we are able to add "live" dummy screens that can include a simple screen-shot or something incorporating your logo.

Our dummy props can be hired on a weekly basis or purchased outright.

THE PERFECT SITUATION:

- * Real Estate Agents,
- * Interior Stylists,
- * Furniture Retailers,
- * Theatre & Drama Groups,
- * Display Homes,
- * Anyone selling their own property.

THE PERFECT SOLUTION:

- * Realism: All our props look identical to an operational model.
- * Value: Our props will last longer and handle better than cardboard or plastic options.
- * Less Loss: You will never again have to worry about theft, our props are clearly marked and much lighter than the equivalent working item.

Monday- Friday 9am-5pm

PROPS AND DUMMY ELECTRONICS

A perfect solution for when you want to style a location or appear to have the latest gadgetry without the risk of it being stolen.

We can customise any unit with a screen to have a generic image, contain your business logo or both.

All electrical componentry has been removed from our items and none of the units are capable of being connected to a wall socket, ensuring the safety of your employees and customers.
